Date: _____

Preferred pharmacy

A simple way to “give back” to Lyon-Martin Health Services is by choosing one of these 340B contracted pharmacies.

340 B is a pharmacy program that allows us to buy medications at discount prices and sell them to insurers at retail/contracted prices. We then pay a small “dispensing/managing fee” to the pharmacy and keep the rest of the difference. The program is for federally qualified health centers (FQHCs) and is designed to help cover the costs of the uninsured and the wrap around services we provide. The program only applies to OUR PATIENTS when they are prescribed drugs by OUR PROVIDERS – not specialists, not SFGH, etc.

Walgreens:

- 1979 Mission St. (Mission street and 16th street)
